SUMMARY

MERN Stack Developer with 3 years experience of building robust and user-friendly web applications using React.js, Node.js, Express, and MongoDB Docker. Adept at crafting efficient RESTful APIs, optimizing performance, and designing intuitive frontend experiences. Passionate about learning new technologies and consistently enhancing development processes. Currently seeking a challenging role to further develop my skills and contribute to innovative projects.

TECHNICAL SKILLS

- **Frontend :** HTML5, CSS3, JavaScript, Tailwind CSS, React.js, Next.js
- **Backend:** Node.js, Express.js, Nest.js, RESTful APIs, GraphQL, MongoDB, MySQL, PostgreSQL, Kubernetes
- **Cloud & Platforms:** AWS (EC2, Lambda, RDS, S3), Vercel, Postman, Git, GitHub, Docker
- **Soft Skills :** Communication, Problem Solving, Leadership, Agile Development
- **Languages :** English, Hindi

PROJECTS

LeadHooper - CRM Application Link

- Led development of a modern CRM to streamline customer management and sales workflows, improving operational efficiency.
- Developed a responsive frontend with React and Next.js, ensuring smooth user experience across all devices.
- Integrated payment gateways for paid services, chat and video consultation modules, and dynamic content management via admin panel.
- Optimized for smooth performance with responsive UI, API caching, and real-time session scheduling using sockets and calendar integrations.
- Designed and implemented secure backend APIs with Node.js and Express.js for efficient data handling and business logic.
- Utilized SQL databases for structured data storage and complex querying to support CRM functionalities.
- Built secure backend APIs using Nest.js and Express.js to handle business logic and data processing.
- Implemented user authentication and role-based access control with JWT for robust security.

Pharmacy E-commerce Platform | Next.js, Sanity, ShadCN UI   Link

- Primarily developed and maintained the backend architecture of an online pharmacy platform built with Next.js, focusing on robust API integrations and secure data handling.
- Integrated Pharmacy Wire API to fetch medicine data and implemented recommendation logic for similar drugs based on ingredients.
- Engineered backend features including prescription/refill email notifications, cart abandonment recovery, and a reorder system with secure credit card payment processing.
- Contributed to frontend enhancements by implementing mobile-first design and applying accessibility standards for improved usability across devices.
- Utilized Sanity CMS for dynamic content management and integrated ShadCN UI components to ensure consistency and responsiveness in the user interface.
- Collaborated closely with cross-functional teams to optimize performance, ensure smooth delivery, and enhance overall user experience.

NovaGems Marketplace | React.js, Nest.js **Link**

- Architected and implemented multiple microservices using Node.js, including payment processing, user authentication, product management, and order handling for modularity and scalability.
- Built a responsive and intuitive frontend with React, focusing on user-friendly navigation, real-time updates, and smooth interactions.
- Engineered backend features including prescription/refill email notifications, cart abandonment recovery, and a reorder system with secure credit card payment processing.
- Developed and supported RESTful web services to facilitate efficient communication between microservices and frontend clients.
- Wrote complex business logic to enhance application functionality and improve user experience.
- Deployed Node.js microservices in Docker containers on Amazon EC2, ensuring scalable and reliable production environments

WORK EXPERIENCE

Mern Stack Developer
Rankingeek Marketing Agency | Nov 2024 – Present

- Mentored junior developers and conducted code reviews to maintain code quality.- Led development of marketing platforms and dashboards using MERN stack.
- Optimized application performance and integrated advanced SEO techniques.
- Received "Engineering Excellence" Award for successful delivery of high-profile project.
- Actively collaborated with design and product teams to deliver custom CMS-driven sites with strong performance and cross-platform compatibility.Coordinated with designers and stakeholders to translate business goals into functional, scalable website solutions.

Full Stack Developer
Viithisys Technology Pvt Ltd | Sep 2022- Oct 2024

- Designed, optimized, and managed both relational and NoSQL databases, including MySQL, PostgreSQL, MongoDB, and Redis, ensuring robust data storage solutions for scalable applications.
- Implemented database caching and indexing strategies to enhance performance, reducing response time and improving system efficiency.
- Developed, tested, and maintained React.js components, focusing on high-performance features and optimized rendering to enhance user experiences.
- Implemented reusable UI components and followed a modular architecture to ensure scalability and ease of maintenance for long-term development.
- Collaborated closely with team members to ensure the seamless integration of new features and improved system functionality.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Technology
A P J Abdul Kalam Technical University, Lucknow(2019–2023) | 70%

Full Stack Development Program

CERTIFICATIONS & AWARDS

- Certified Full Stack Developer – Masai School
- "Engineering Excellence" Award – RankingGeek Marketing Agency

---

Open to Full-time MERN Stack roles (Remote/Hybrid/In-Office) with competitive compensation.
